

AIX Network Installation Management Concepts and Configuration

Trainings-ID: AN22G

[Zum Seminar →](#)

Das nehmen Sie mit

The primary goal of this course is to provide you with a working knowledge of the fundamental capabilities of the Network Installation Management (NIM) facility of the AIX 7.1 operating system. This course uses a combination of instructor lecture and machine exercises to provide you with practical background knowledge of the topics covered.

Training Paths that reference this course are:

[AIX Users and System Administration](#)

Zielgruppen

This course is appropriate for anyone with system administrative duties installing and managing an AIX operating system in a multiuser POWER (System p) environment.
