Das nehmen Sie mit

Learn to design and implement streaming data analytics solutions using AWS Services with an expert AWS instructor.

The course dives deep into Amazon Kinesis and Amazon MSK through a mixture of instructor-led presentations, practice labs, demonstrations, and class exercises so you can walk away understanding how to build a streaming data analytics solution on AWS. You'll also learn how to scale streaming applications using Amazon Kinesis, optimize data storage, how to select and deploy appropriate options to ingest, transform, store, and analyze data, and more.

Zielgruppen

- Data and data platform engineers
- Solutions architects
- Data Architects
- Developers who want to build and manage streaming data analytics pipelines
