

Buidling Secure Cluster Infrastructure in the Cloud

Trainings-ID: CMAP24-Mod13

[Zum Seminar →](#)

Das nehmen Sie mit

Students will become familiar with all configuration parameters for the Azure Kubernetes Services from the security perspective. Further, they will learn how to plan optimal specification and design to secure cluster infrastructure by going through:

Zielgruppen

- Ambitious Beginners in Cybersecurity - if you are a beginner with 1-2 years experience in cybersecurity, challenges define who you are. This training will hone your skills to detect today's sophisticated cyberattacks and accelerate your career prospects in the field.
- Specialists in IT - if you have 4-5 years experience in IT and want to spin off into cybersecurity, this training will give you all the relevant foundation and specialist skillsets to carve an exciting new career in cybersecurity.
- Cybersecurity Specialists - this program is relevant for specialists with 3-5 years and more. You will polish up your skills, learn the most current tools and techniques relevant for the newest systems, and boost your reputation
