IBM FileNet P8 Platform Essentials (V5.5.x)

Trainings-ID: **F280G**

MOC: **F280G**

Zum Seminar →

Das nehmen Sie mit

Learn about IBM FileNet Content Manager. You learn the basic architecture and how IBM FileNet Content Manager can be used to solve real-world business challenges. You learn about the Administration Console for Content Platform Engine and how to navigate the FileNet P8 domain structures. If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.

After completing this course, students will be able to:

- Identify components, features, and common use cases for IBM FileNet Component Manager.
- Find the core web applications that make up IBM FileNet Content Manager.
- Use Administration Console for Content Platform Engine (ACCE) to find properties within the Global Configuration database.
- Use ACCE to find folders, classes, and property templates in an object store.
