

# System Forensics, Incident Handling and Threat Hunting (FOR)

---

Trainings-ID: FOR

[Zum Seminar →](#)

---

## Das nehmen Sie mit

Forensics and Incident Handling are constantly evolving and crucial topics in the area of cybersecurity. In order to stay on top of the attackers, the knowledge of Individuals and Teams responsible for collecting digital evidences and handling the incidents has to be constantly enhanced and updated. This advanced training provides skills necessary to find, collect and preserve data in a correct manner, analyze it and get to know as much about the incident as possible. This is an intense hands-on course covering the general approach to forensics and incident handling, network forensics, important aspects of Windows internals, memory and storage analysis, detecting indicators of compromise and a proper way of reporting.

## Zielgruppen

- IT professionals
- Forensics and Incident Handling Specialists
- Security Consultants
- Enterprise Administrators
- Infrastructure Architects
- Security Professionals
