Das nehmen Sie mit

Hewlett Packard Enterprise (HPE) OneView is an integrated converged management platform that automates tasks and streamlines processes delivering the entire lifecycle management for HPE Composable Infrastructure. HPE OneView provides the software-defined intelligence across the entire HPE family of infrastructure solutions, from providing embedded management in HPE Synergy to delivering attributes of composability in HPE BladeSystem, HPE ProLiant DL, HPE 3PAR StoreServ and StoreVirtual VSA, HPE Virtual Connect, HPE Apollo and HPE ConvergedSystem.

This instructor led course is essential training for system, network, and storage administrators using HPE OneView and for system architects implementing HPE OneView.

Zielgruppen

- System, network, and storage administrators, and consultants who manage and monitor an HPE environment and for system architects anticipating the implementation of HPE OneView.
