

Networking in OpenStack® using Neutron

Trainings-ID: H4S71S

[Zum Seminar →](#)

Das nehmen Sie mit

This two-day course will take students through an in depth look at the OpenStack Network service Neutron. The result will be the skills to design and build a scalable extensible network within an OpenStack environment. The students will get hands-on lab experience of many of the course topics in a dedicated, pre-built OpenStack environment. This course assists in preparing students to pass introductory level OpenStack certification exams.

After you successfully complete this course, expect to be able to:

- Understand the OpenStack networking components and how they work together
- Understand the architecture and extensibility of an OpenStack based network
- Troubleshoot an OpenStack based network
- Helps prepare you for OpenStack certification exams including the Mirantis OpenStack Administrator Certification Associate Level (MCA100)

Zielgruppen

- Network Administrators
- Network Architects
- Solution Architects
- Sales Engineers
- Technical Marketing Staff
- OpenStack Administrators
- OpenStack Architects
