

HPE Performance Cluster Management Foundations

Trainings-ID: H8PE8S

[Zum Seminar →](#)

Das nehmen Sie mit

The HPE Performance Cluster Manager (HPCM) Foundations course provides knowledge and practice in cluster operation areas such as navigating the HPCM graphical user interface (GUI), monitoring cluster components, operating system boot modes and root filesystem modes, cluster power management, running commands on multiple servers, connecting to server consoles, and backing up the cluster configuration.

After you successfully complete this course, expect to be able to:

- Describe cluster components
- Navigate HPCM GUI
- Use operating system boot modes and root file system modes
- Manage power with graphical and command line options
- Gather information from groups of servers
- Send instructions to groups of servers
- Compare differences between servers
- Connect server consoles with graphical and command line options
- Backup cluster and management switch configuration
- Backup the system admin node with your house solution

Zielgruppen

Attend this class if you operate and monitor cluster managed with the HPE Performance
