

HPE Recovery Manager Central

Hersteller-ID: H9P99S

Trainings-ID: H9P99S

[Zum Seminar →](#)

Das nehmen Sie mit

HPE Recovery Manager Central (RMC) software integrates HPE 3PAR StoreServ, Nimble primary storage and StoreVirtual VSA with HPE StoreOnce systems. This provides application managed data protection that speeds and simplifies data protection for virtualization data on your 3PAR StoreServ array, while bypassing traditional backup server-based processes. This course provides hands-on configuration of the RMC appliance and the RMC-V appliance plug-in to backup and restore virtual machines.

Nach Abschluss dieses Seminars haben die Teilnehmer Wissen zu folgenden Themen:

- Describe the RMC architecture
- Create and configure virtual machines in VMware
- Use RMC to back up VMs to a StoreOnce appliance using catalyst (CoFC and CoETH)

Zielgruppen

IT professionals who want to evaluate the deployment, configuration, and administration of services and virtual machines using RMC-V
