

HPE Nimble I: Management and Local Replication

Trainings-ID: HJ7C5S

[Zum Seminar →](#)

Das nehmen Sie mit

Using hands-on labs, this course teaches students how to perform common management tasks, including array installation, volume creation, and data protection/recovery using snapshots. This course also covers system monitoring basics using Nimble Storage's InfoSight.

At the conclusion of this course, the student should be able to:

- Perform initial configuration of a new array with NSM and GUI
- Perform post-installation tests
- Create volumes and zero-copy clones
- Attach and verify volumes/clones to Windows
- Create and modify data protection policies for volumes
- Restore volumes and individual files from a snapshot
- Use the Nimble GUI to monitor array capacity/performance

Zielgruppen

Customers, administrators and channel partner sales or technical sales
