Das nehmen Sie mit

Managing HPE StoreOnce Backup Solutions covers the HPE StoreOnce backup products, including the single node appliances, the clustered appliances, and the Virtual SAN Appliance (VSA). In this course, we discuss the range of products in the product line, and explain concepts, installation, and use. The course includes hands-on labs using HPE StoreOnce appliances. This course is updated to include the new, advanced features of the products.

After you successfully complete this course, expect to be able to:

- Describe the major hardware and software components of the StoreOnce product line
- Describe important StoreOnce product concepts
- Explain the importance and advantages of deduplication
- Configure StoreOnce devices for initial use
- Create Virtual Tape Libraries (VTL) and NAS shares
- Configure replication between two StoreOnce devices
- Configure Catalyst Stores
- Perform basic troubleshooting and maintenance procedures

Zielgruppen

StoreOnce customers, HPE Services field engineers, call center personnel, presales and channel partners, and other field personnel who provide installation and/or operational support assistance
