Das nehmen Sie mit

Internet Information Services is a solution that can be delivered in a couple of hours as well as in 3 weeks –we practiced both options! IIS is a never-ending subject that requires a deep-dive if you consider using it for web farm administration or if you want to become familiar with IIS behavior in particular situations. During this intensive 4-day training students will be introduced to the process of configuring advanced IIS features, configuring security settings, performing advanced troubleshooting and monitoring. You will learn everything you need to maintain and provide availability to business Web Application platform.

All exercises are based on Windows Server 2016 and 2019, Windows 10 and Kali Linux. This course is based on practical knowledge from tons of successful projects, many years of real-world experience and no mercy for misconfigurations or insecure solutions! Remember that the labs will stay online for an extra three weeks so you may practice even more after the training is completed!
