

Managing Entra ID from A to Z (ATZ)

Trainings-ID: **MAAD**

Ort: **Wien, Online**

[Zum Seminar →](#)

Das nehmen Sie mit

This advanced course will guide you through all aspects of deploying and managing Azure Active Directory (AAD) in an organization in a secure way. We will cover co-existence with on-premises Active Directory and options for 3rd party application integration. We will also thoroughly discuss the AAD security best practices during the entire course, including access management, auditing, multi-factor authentication (MFA) configuration, and governance. This technical course is intended for security architects, Active Directory administrators, security administrators, and security auditors.

Zielgruppen

- Enterprise administrators
- infrastructure architects
- security professionals
- systems engineers
- network administrators
- IT professionals
- security consultants and other people responsible for implementing network and perimeter security
