

Managing Windows 11 Using Microsoft Endpoint Manager: Configuration Manager and M365

Trainings-ID: MEMCM

[Zum Seminar →](#)

Das nehmen Sie mit

In this Microsoft endpoint configuration manager training you will learn to design, deploy, manage and troubleshoot Microsoft Configuration Manager, Microsoft 365 and Windows endpoints.

The course focuses on automation and optimising Windows management with Configuration Manager, Microsoft 365 and Microsoft Azure. You will gain in-depth knowledge of design options, key features and troubleshooting techniques as well as how to securely deploy Configuration Manager and Microsoft 365 for Windows endpoints.
