

Masterclass: Microsoft Identity Manager (MIM)

Trainings-ID: MIM

[Zum Seminar →](#)

Das nehmen Sie mit

Microsoft Identity Manager is a tool that helps you manage identities and automate identity-related business processes that reduce operational cost and improve security. You will learn how to manage users and groups and implement self-service parts. We will present the proper approach to troubleshooting, and implementing best practices. You will see how to use identity management to protect administrative accounts within Active Directory. We will demonstrate how to implement role based access control and create effective reports with Microsoft Identity Manager.

Zielgruppen

- system engineers
- solution architects
- developers
- IT staff responsible for managing identities in their corporate environment

Wichtige Informationen
