

# Masterclass: Public Key Infrastructure Management

Trainings-ID: PKI\_MS

[Zum Seminar →](#)

## Das nehmen Sie mit

This 5-day course is considered essential for anyone who would like to expand their knowledge about Public Key Infrastructure (PKI) in Microsoft technologies. During the course PKI is covered in depth, starting from the best practices for implementing secure and reliable PKI and ending up with most common scenarios of certificates usage in the enterprise environment.

To get more practice we offer three extra weeks of labs online!

At the end of the course you will be able to:

- Understand the core essence of PKI and cryptography.
- Evaluate and select appropriate PKI technologies.
- Install and configure PKI environments according to the best practices taken from practical experience.
- Secure existing PKI infrastructure.
- Choose appropriate types and manage the certificate lifecycle.
- Understand the benefits of certificates used in the infrastructure.
- Adjust PKI to your business needs.
- Become familiar with enterprise solutions that uses PKI and certificates for security.
- Configure and use certificates in: IIS, VPN, Wi-Fi, file encryption, e-mail security and many more.
