

NonStop SQL/MP Database Management

Trainings-ID: U4180S

[Zum Seminar →](#)

Das nehmen Sie mit

This 5-day course introduces the tasks and tools used by a database administrator or system manager who is responsible for the daily management and protection of NonStop SQL/MP database, programs that access the database, and other associated database elements. Hands-on labs give you practical experience in performing management tasks against a database with applications.

Zielgruppen

- Database administrators
- System managers
- People responsible for availability of NonStop SQL/MP databases and applications
