

Open System Services (OSS) Basic Commands and Utilities

Trainings-ID: U5516S

[Zum Seminar →](#)

Das nehmen Sie mit

Open System Services (OSS) is an open computing interface to the HPE NonStop Kernel operating system and is based on POSIX standards. This course is intended for OSS application developers who will be creating or porting applications to the OSS environment on a NonStop server. New OSS users are introduced to OSS basic commands, editors, and utilities in the NonStop Kernel OSS environment. This course is 60 percent lecture and 40 percent hands-on labs using HPE servers.

After you successfully complete this course, expect to be able to:

- Navigate the OSS directory structure
- Display the contents of a file and a directory
- Create aliases
- Set and change file and directory permissions
- Change user and group IDs
- Set the sticky bit
- Perform specific vi commands
- Configure a user profile
- Manipulate environment variables and background jobs
- Stop an OSS process
- Time start an application
