Masterclass: Windows Infrastructure Advanced Penetration Testing (WIAPT)

Trainings-ID: **WinIAPT**

Zum Seminar →

Das nehmen Sie mit

During this 5-day course in 35 hours of super intensive training you will gain crucial cybersecurity knowledge and skills in terms of Windows Infrastructure Advanced Penetration Testing. Moreover, you will be able to:

- Get the highest quality and unique learning experience – the class is limited to 10 participants by default.
- Get the opportunity to interact with our world-renowned Experts.
- Go through CQURE's custom lab exercises and practice them after the course.
- Receive a lifelong certification after completing the course!

All exercises are based on Windows Server, Windows 10, and Kali Linux. This course is based on practical knowledge from tons of successful projects, many years of real-world experience and no mercy for misconfigurations or insecure solutions! Remember that the labs will stay online for an extra three weeks so you may practice even more after the training is completed!
